Torches without leatherhose. Machine side separate connections.

In variation to the torches listed below, the torches can also be produced with other power/ water cables (e.g. HT 180 silicone superflexible). This can also be combined with hoses in a lot of different qualities. Torches and cable assemblies can be produced in excess lengths. Please find the different options and surcharges in the appendix C "Custom made products". We produce torches for more than 40 different brands of machines with different connection systems.

The following torches are equipped with highly flexible and heat resistant rubber fabric hoses.
